Dr. A. McPhedran,  
151 Bloor Street West,  
Toronto.

Dear Dr. McPhedran:

Mr. Tomlin has been to see me about the Western Hospital. In order to facilitate matters there in connection with circumstances that have arisen I have thought it right to make the appointments of Drs. Heggie and Page as Clinical Assistants in Medicine immediately. It will help us to clear up matters there I feel sure.

Yours sincerely,

President.

8 June 1914

Dear Mr President.

Somewhat over twenty-five in all these years failed in Medicine in the late Examinations. They are required to take a course of two months to qualify for the September Examinations. At least four instructors will be required and I beg to submit the following for appointment:-

Dr John A. Oille,

Dr Ernest Shetley,

Dr C Stanley McVicar,

Dr George F. Boyer.

Yours sincerely  
A. H. Phedran

May 4th, 1914

Dr. A. McPhedran,

151 Bloor Street West,

Toronto.

Dear Dr. McPhedran:

Dr. Graham Chambers came in to see me this morning about the position of Examiner in fourth year Medicine which has been given to him. He objects strenuously to being put on the same scale as two juniors and he wishes to withdraw from the appointment. I told him that inasmuch as in Medicine the appointments for examinerships were paid for that any man might withdraw from the position to which he had been nominated, and he desires to do so. I do not see what other action we can take in this matter. I told him that I felt sure you did not wish to give him any personal offence in the matter.

With kind regards, I am,

Yours sincerely,

President.

The President,

University of Toronto,

C i t y .

Dear Mr. President:-

I herewith submit the names of Clinical Assistants in Medicine for your consideration, for promotion to the rank of Demonstrators:- John A. Ville; Julian Loudon; George F. Boyer; M. B. White; A. W. Canfield.

The first four of these have done better than ordinary work. In fact, Dr. Ville is one of the best men on the staff and I would like very much if he could be raised to the rank of Associate in Medicine. It may be better to wait a year until we can settle on the others, especially Dr. J. S. Graham. Dr. Baines is very anxious to have him promoted. There are, however, some quite as long in the class of Demonstrators as he is, so that I feel reluctant to recommend. Dr. Ville, I think, stands ahead of any of them. I will be glad to discuss them with you if you have time.

Regarding the other Demonstrators, I find there is much difficulty in acting at present. Some of them ought to be promoted - others have not merited promotion.

Yours sincerely,

Alexander McPhedran
